Introduction

Ascent Meditech Limited; is one of the fastest growing consumer healthcare product organization addressing the needs of pain management, wound and mobility market through an extensive range of quality products. Our five state of the art manufacturing units, with a combined production capacity of **40,000** units per day have **WHO-GMP** standards and our major products are **CE** certified and **U.S. FDA** compliant.

Our products across Orthopaedic, Healthcare, Mobility and Wound segments are sold under our flagship Award Winning* Healthcare Brand; Flamingo in 50 countries across the globe mainly in Middle East, Africa and South East Asia.

While products under the Orthopaedic and Healthcare segments cater to the various musculoskeletal and lifestyle related disorders respectively, the focus of products under the Mobility and Wound segments is directed towards mobility impairment and wound care.

At **Ascent Meditech Limited**, our continuous focus on quality products is aimed at providing 'An Aid for A New Life' to our present and future consumers.

*Awarded the Best Healthcare Brand 2019, by Economic Times

Usage of orthopaedic soft goods among consumers has gradually increased over time.

Winds of change are being experienced in the category of Orthopaedic Soft Goods, with many products becoming necessities and an essential part of an individual's life.

Today, this space is buzzing with activity and is poised to grow by 15 – 18% in the near future.

Products in this space is usually segregated by the human musculoskeletal structure starting from **Spine** and ending at **Ankle & Foot**.

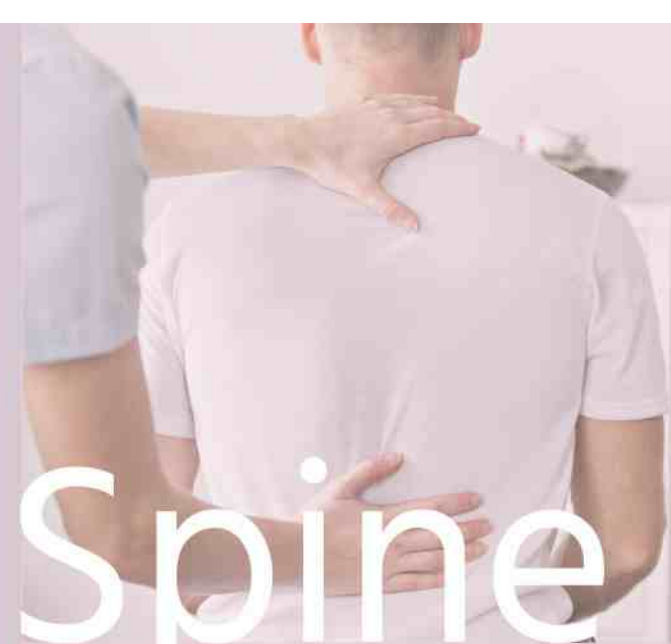

Support for Spine

Spine, the most important part of a human anatomy not only provides body structure and support but also helps an individual with movements and flexibility. Top it, spine provides the required protection to the spinal cord (column of nerves which connects the brain to the various parts of the body). The spinal vertebrae comprises of 33 vertebrae -7 cervical, 12 thoracic, 5 lumbar, 5 sacral and 4 coccygeal. In lieu of the criticality of the functions provided by Spine, it's imperative that the vertebrae be protected and supported from usual problems.

Common Problems :

Stiff neck, herniated disc, fracture, neck muscle strain, spinal cord injury, spondylosis, spondylolysis, spondylolisthesis etc.

Cervical Orthosis (Philadelphia Collar)

For simple and stable fractures of cervical vertebrae, post- trauma, disc herniation, spondylolisthesis and other similar conditions. Supports and immobilizes the neck region with comfort. 2- piece design with anterior and posterior struts of semi-rigid plastic. Has molded chin and occipital support. Offers large trachea opening

Size : S	Below 7 cms
M	7 cm to 8 cms
L	8 cm to 9 cms
XL	9 cm to 10 cms

Code - OC 2009

Cervical Immobilizer

For simple and stable fractures of cervical vertebrae, post- trauma, disc herniation, spondylolisthesis and other similar condition. Support immobilizes the neck region. One piece design with chin support. Offers large trachea opening.

Size : S	Below 7 cms
M	7 cm to 8 cms
L	8 cm to 9 cms
XL	9 cm to 10 cms

Code - OC 2008

Cervical Collar with Neck Support (Height Adjustable)

Recommended for cervical spondylitis, cervical disc disease, cervical fracture, whiplash injury etc. Provides rigid support with immobilization and comfort. Made of plastic with moulded well cushioned chin. And height adjustable.

Size : S	Below 7 cms
M	7 cm to 10 cms
L	10 cm to 12 cms
XL	12 cm to 14 cms
2XL	14 cm Above

Code - OC 2190

Cervical Collar

For strains, sprains, whiplash, cervical spondylosis and other similar conditions. Provides support and limits motion to some extent with comfort. Also works as a kinesthetic reminder to the wearer. Made of foam and cotton stockinette. Air vents present for ventilation.

Size : S	7.5 - 8.75 cms
M	8.75 - 10 cms
L	10 - 11.25 cms
XL	11.25 - 12.5 cms
2XL	12.5 - 13.75 cms

Code - OC 2003

Soft Collar

For sprains, strains, whiplash or for preventive care. Provide soft support with comfort. Also, works as kinesthetic reminder. Made of foam & cotton stockinette. Easy application and removal

Size : S	7.5 - 8.75 cms
M	8.75 - 10 cms
L	10 - 11.25 cms
XL	11.25 - 12.5 cms
2XL	12.5 - 13.75 cms

Code - OC 2037

Hard Collar (Height Adjustable)

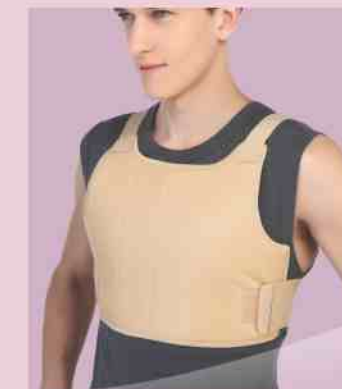

Helps in cervical spondylitis, mild sprain/ stiff neck, arthritis and other similar conditions. Provides rigid support and immobilization. Made from malleable soft plastic with perforations for ventilation. Height adjustable.

Size : S	30 - 35 cms
M	35 - 40 cms
L	40 - 45 cms
XL	45 - 50 cms
2XL	50 - 55 cms

Code - OC 2110

Chest Guard

For bike riding. Helps avoid the strong wind hitting the chest region, protection from cold resulting to chest congestion. Protects ribs, chest and inner vital organs. Comfortable and easy to wear.

Size : S	75 - 85 cms
M	85 - 95 cms
L	95 - 105 cms
XL	105 - 115 cms
2XL	115 - 125 cms
3XL	125 - 135 cms

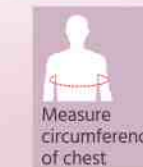

Code - OC 2048

Sternal Splint

Designed for weakened sternum by injury/surgery. Provides mild compression and support. Helps control rib cage expansion while coughing or sneezing. High quality soft foam pad and 5.25" chest wrap with convenient Velcro.

Size : S	75 - 85 cms
M	85 - 95 cms
L	95 - 105 cms
XL	105 - 115 cms
2XL	115 - 125 cms
3XL	125 - 135 cms

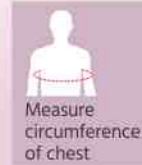

Code - OC 2029

Support for Spine

Rib Chest Belt (Male)

Recommended for sternum fractures, rib fracture or dislocation of the ribs. Helps provide support & stabilization. Facilitates easy breathing, deep breathing and even spasms. Easy to wear

Size : S	75 - 85 cms
M	85 - 95 cms
L	95 - 105 cms
XL	105 - 110 cms
2XL	115 - 125 cms
3XL	125 - 135 cms

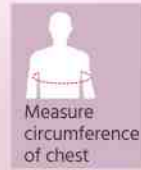

Code - OC 2028

Rib Belt (Female)

Recommended for sternum fractures, rib fracture or dislocation of the ribs. Helps provide support & stabilization. Facilitates easy breathing, deep breathing and even spasms. Easy to wear

Size : S	75 - 85 cms
M	85 - 95 cms
L	95 - 105 cms
XL	105 - 110 cms
2XL	115 - 125 cms
3XL	125 - 135 cms

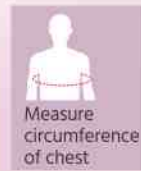

Code - OC 2204

Clavicle Brace

For fracture of clavicle bone. Immobilizes, compresses and stabilizes fracture. Wide cushion straps and wide posterior pad provides comfortable fit.

Size : S	75 - 85 cms
M	85 - 95 cms
L	95 - 105 cms
XL	105 - 110 cms
2XL	115 - 125 cms
3XL	125 - 135 cms

Code - OC 2018

Pelvic Binder

For pelvic fracture, laparotomy, angiography, during critical conditions or trauma cases. Binds the pelvic region. Helps reduce pain & movement during transfers by providing temporary stabilization. Simple strap fasteners for easy donning and adjustments.

Size : S	80 - 90 cms
M	90 - 100 cms
L	100 - 110 cms
XL	110 - 120 cms
2XL	120 - 130 cms
3XL	130 - 140 cms

Code - OC 2116

Support for Spine

Lumbar Corset Belt

For low back pain or strain or other spinal conditions. Helps provide support, restricts motion to certain extent with comfort and proprioceptive compression. Has double elastic strap with 2 metal and 2 plastic paraspinal stays. Easy to wear.

Size : S	70 - 80 cms
M	80 - 90 cms
L	90 - 100 cms
XL	100 - 110 cms
2XL	110 - 120 cms
3XL	120 - 130 cms

Code - OC 2033

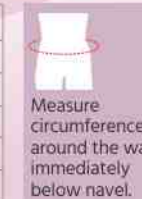

Lumbar Sacro Belt

Recommended in degenerative disc disease, lumbosacral spondylolysis, osteoporosis in lumbar region, poor posture or low back pain. Improves posture, supports spine, partial immobilization with snug fit. Double elastic strap design for proper fitting with 5 plastic paraspinal stays. Easy to wear.

Size : Uni.	70 - 110 cms
Spl.	110 - 130 cms

Size : S	70 - 80 cms
M	80 - 90 cms
L	90 - 100 cms
XL	100 - 110 cms
2XL	110 - 120 cms
3XL	120 - 130 cms

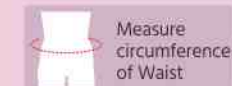

Code - OC 2001

Contoured L S Support

Helps in low back pain, post surgery in lumbosacral region and other spinal conditions. Ensures better immobilization with good posture. Double elastic strap design with four contoured malleable aluminum splints. Easy to wear.

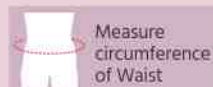

Size : S	70 - 80 cms
M	80 - 90 cms
L	90 - 100 cms
XL	100 - 110 cms
2XL	110 - 120 cms
3XL	120 - 130 cms

Code - OC 2007

Contoured L S Belt

Helps in low back pain, post surgery in lumbosacral region and other spinal conditions. Ensures better immobilization with good posture. Double elastic strap design with four contoured malleable aluminum splints. Easy to wear.

Measure circumference of Waist	
Size : S	70 - 80 cms
M	80 - 90 cms
L	90 - 100 cms
XL	100 - 110 cms
2XL	110 - 120 cms
3XL	120 - 130 cms

Available in two colours

Black

Beige

Four aluminum malleable metal splints are removable & can be given the desired contour to support the vertebrae.

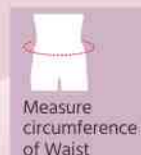

Back side

Code - OC 2006

ECO Frame Belt

For acute low back pain, slip disc, disc herniation, lumbar fracture and post surgery. Ensures immobilization of spine with more rigid back support. Two strap elastic design with flexible metal frame having both paraspinal and lateral supports.

Measure circumference of Waist

Measure circumference of Waist	
Size : S	70 - 80 cms
M	80 - 90 cms
L	90 - 100 cms
XL	100 - 110 cms
2XL	110 - 120 cms
3XL	120 - 130 cms

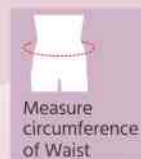

Front side

Code - OC 2050

Dorsolumbar Spinal Brace (Taylors Brace)

Recommended in vertebral body fractures or collapse, osteoporosis, spondylolisthesis, post-op spinal fusion, laminectomy and disectomy. Supports and immobilizes spine in neutral position. Also, works as kinesthetic reminder to the wearer. Posterior contoured and malleable metal frame with pelvic band, thoracic band and two paraspinal uprights. Abdominal attachment and shoulder straps to hold the brace snugly.

Measure circumference of Waist

Measure circumference of Waist	
Size : S	70 - 80 cms
M	80 - 90 cms
L	90 - 100 cms
XL	100 - 110 cms
2XL	110 - 120 cms
3XL	120 - 130 cms

Code - OC 2034

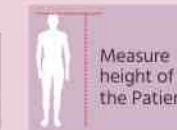

Hyper Extension Brace

It is recommended in conditions like un-displaced fractures and compression fractures of lower thoracic & upper lumbar vertebrae, any complication of thoraco-lumbar junction which needs prevention of flexion, post operative spine immobilization etc. Hyper extension brace consist of rectangular metal frame that worn in the front of the body. It has 3 pads which help to stabilize the spine and prevent forward bending. It is lightweight, has arrangement to adjust height according to the need. And, comfortable and easy to apply with Velcro strap and cushioned back pad.

Code - OC 2129

Available in two sizes.
Short - Up to 165 cms
Long - Above 165 cms

Measure height of the Patient

Back Side

Posture Brace

Posture brace is designed to correct poor posture and shoulder slump. For poor posture, slouching and pain in thoracic spine. Helps to reinforce back alignment and proper posture with support. Breathable fabric with additional stays and adjustable straps with proper fitment.

Code - OC 2361

Measure circumference of chest

Measure circumference of chest	
Size : S	75 - 85 cms
M	85 - 95 cms
L	95 - 105 cms
XL	105 - 110 cms
2XL	115 - 125 cms
3XL	125 - 135 cms

Compact Spinal Brace

For weakened dorso-lumbar spine due to tuberculosis, mild thoracolumbar injury, herniated disc, post-operative rehabilitation. Helps provide support, compression and immobilization of spine. Made of breathable fabric with lumbar pad. Easy application.

Code - OC 2363

Measure circumference of chest

Measure circumference of chest	
Size : S	75 - 85 cms
M	85 - 95 cms
L	95 - 105 cms
XL	105 - 110 cms
2XL	115 - 125 cms
3XL	125 - 135 cms

New

Lacepull Back Belt

Made of breathable material it helps in providing relief from low back pain as well as maintain correct posture. Provides controlled compression due to presence of dual pulley thus enabling adjustment of upper and lower region of lumbar spine.

Code - OC 2454

Available in two colours

Black

Beige

*Measure circumference around the waist immediately below navel.

*Measure circumference around the waist immediately below navel.	
Size :	
Universal	- 70 - 100 cms
Special	- 100 - 130 cms

New

Back Comfort Belt

Recommended during low back pain or muscle strain/ sprain. Easy to wear with presence of flexible splints, ensuring stability. Versatile - can be used on lumbar and lumbosacral regions

Code - OC 2455

Available in two colours

Black

Beige

2XL	110 - 120 cms

Shoulder & Elbow

Shoulder forms the largest and is a major joint in the human body structure. Its utility is manifold, from providing support to the arms to lending flexibility; shoulder enable an individual to carry out multiple activities in their everyday life. Being the most used joint in the human anatomy, it is prone to being unstable. Human shoulder is made up of three bones; the clavicle (collarbone), the scapula (shoulder blade), and the humerus (upper arm bone) as well as associated muscles, ligaments and tendons.

Common Problems :

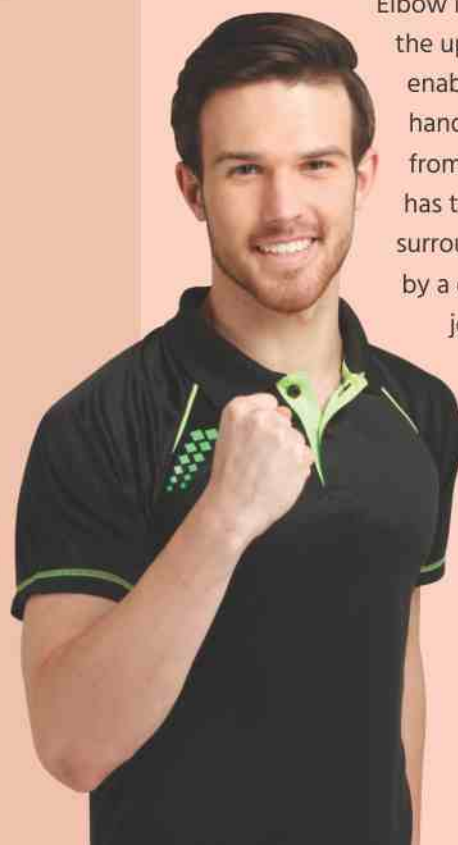

Rotator cuff muscle strain or tear, labrum rupture, impingement syndrome, adhesive capsulitis, subluxation, dislocation and fracture etc.

Elbow is the visible joint between the upper and lower parts of the arm enabling our forearm and hand to be moved towards and away from the body. Human elbow joint has three different portions surrounded

by a common joint capsule. These are joints between the three bones of the elbow, the humerus of the upper arm, the radius and the ulna of the forearm.

Common Problems :

Tennis Elbow, Golfer's elbow, fracture, dislocation,

Support for Shoulder

Code - OC 2026

Universal Shoulder Immobilizer

Recommended in post - operative immobilization of shoulder joint, shoulder dislocation etc. Provides immobilization of shoulder joint. Easy to wear. Can be worn on both left and right sides. Adjustable hook and loop for desired adjustment. Soft cushion pad to ease pressure around neck

Available in two colours

Black

Beige

Measure circumference around the chest.

Common for left & right hand.

Size :

Universal	- 70 - 107 cms
Special	- 107 - 130 cms

Code - OC 2042

Shoulder Support

It is recommended in conditions like Shoulder subluxation, shoulder dislocation, rotator cuff tendonitis and shoulder instability. It provides warmth, stability, support and pain relief to shoulder joint. Can be worn on left or right shoulder. Can be worn comfortably under clothing.

Available in two colours

Black

Beige

Measure circumference of chest

Common for left & right hand.

Size :

S	75 - 85 cms
M	85 - 95 cms
L	95 - 105 cms
XL	105 - 110 cms
2XL	115 - 125 cms
3XL	125 - 135 cms

Code - OC 2038

Elastic Shoulder Immobilizer

Recommended in post-operative immobilization of shoulder joint, shoulder dislocation and other similar conditions. Provides immobilization of shoulder joint. Easy to wear. Can be worn on both left and right sides. Additional shoulder cap or better grip.

Available in two colours

Black

Beige

Measure circumference of chest

Common for left & right hand.

Size :

S	75 - 85 cms
M	85 - 95 cms
L	95 - 105 cms
XL	105 - 110 cms
2XL	115 - 125 cms
3XL	125 - 135 cms

Code - OC 2036

Arm Pouch

Recommended for sprain, strain, fracture and dislocation of arm as well as has post-operative use. Supports and immobilizes elbow in flexion position. Suitable for supporting arm with cast. Adjustable broad shoulder pad distributes pressure over neck and shoulder. Thumb loop helps to reduces thumb fatigue.

Available in two colours

Black

Beige

Measure the length of forearm.

Common for left & right hand.

Size :

XS	22.5 - 25 cms
S	25 - 27.5 cms
M	27.5 - 30 cms
L	30 - 32.5 cms
XL	32.5 - 35 cms
2XL	35 - 37.5 cms

Support for Shoulder

Arm Sling

Recommended for sprain, strain, fracture and dislocation of arm as well as has post-operative use. Supports and immobilizes elbow in flexion position. Suitable for supporting arm with cast. Specially made from foam piled fabric for extra comfort. Adjustable broad shoulder pad distributes pressure over neck and shoulder. Thumb loop helps to reduce thumb fatigue.

Available in two colours

Black

Beige

Measure the length of forearm.

Common for left & right hand.

Size :	XS	22.5-25 cms
	S	25 - 27.5 cms
	M	27.5 - 30 cms
	L	30 - 32.5 cms
	XL	32.5 - 35 cms
	2XL	35 - 37.5 cms

Code - OC 2004

Arm Sling Strap (With Neck Pad)

In conservative and surgical management of strain, sprain and fracture. Supports and suspends the forearm with elbow in 90° flexion. Adjustable straps according to need and neck pad for even pressure distribution. Easy to wear.

Common for left & right hand.

Size: Universal

Code - OC 2041

Cuff & Collar Sling

Recommended for sprain, strain, fracture and dislocation of arm as well as has post-operative use. Supports and immobilizes elbow in flexion position. Made of soft foam in stockinette tube. Easy to use, simple to adjust and washable.

Common for left & right hand.

Size: Universal

Code - OC 2128

Arm Immobilizer

Recommended for adults having pain in elbow, elbow fracture, ulnar nerve compression or whenever elbow needs to be restrained. Holds the arm in extension position and prevent flexion with enhanced comfort. Has two side malleable metal splints to hold elbow in extension. Adjustable velcros for proper fit

Available in two colours

Black

Beige

Measure circumference of forearm

Common for left & right hand.

Size :	S	20 - 22.5 cms
	M	22.5 - 25 cms
	L	25 - 27.5 cms
	XL	27.5 - 30 cms
	2XL	30 - 32.5 cms

Code - OC 2082

Support for Elbow

Tennis Elbow Support (With pressure pad)

For tennis elbow, golfers elbow, selfie elbow, racquet players and industrial workers. Ensures strong grip and comfortable compression with pain relief. Adjustable hook and loop strap for tension control.

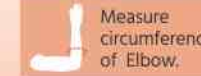

Size :	Universal	20 - 27.5 cms
	Special	27.5 - 35.5 cms

Available in two colours

Black

Beige

Measure circumference of Elbow.

Common for left & right elbow.

Size :	S	20 - 22.5 cms
	M	22.5 - 25 cms
	L	25 - 27.5 cms
	XL	27.5 - 30 cms
	2XL	30 - 32.5 cms

Code - OC 2024

Elbow Support

Pain associated with old age, arthritis, sports injury etc. Retains heat and uniform compression that helps to reduce pain. Easy elbow movement with comfort. Made of 2- way stretch knit fabric. Easy pull on application

Available in two colours

Black

Beige

Measure circumference of Elbow.

Size :	S	20 - 22.5 cms
	M	22.5 - 25 cms
	L	25 - 27.5 cms
	XL	27.5 - 30 cms
	2XL	30 - 32.5 cms

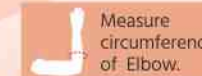

Code - OC 2021

Gel Tennis Elbow Support

For tennis elbow, golfer's elbow, selfie elbow, racquet players and industrial workers. Gel pad ensures better grip, comfortable compression with relief in pain and soreness. Adjustable hook - loop strap for tension control.

Measure circumference of Elbow.

Size :	Uni.	20 - 27.5 cms
	Spl.	27.5 - 35.5 cms

Common for left & right elbow.

Code - OC 2195

Gel Elbow Support

Recommended in arthritis, sports injury, old age & other similar conditions. Retains heat & uniform compression that helps to reduce pain. Made up of 2 way stretch knit fabric with soft gel pad inside. Easy pull on application with comfortable elbow movement.

Measure circumference of Elbow.

Size :	S	20 - 22.5 cms
	M	22.5 - 25 cms
	L	25 - 27.5 cms
	XL	27.5 - 30 cms
	2XL	30 - 32.5 cms

Soft Gel Sheet Inside

Common for left & right elbow.

Code - OC 2192

Human hand and wrist is made up of different bones, muscles and ligaments enabling a wide range of movements. While our compression range of products is directed towards providing support during muscle, ligament strain and injury our splints are focussed towards fracture and sprain.

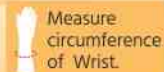

Common Problems : Ulnar fracture, carpal bone fracture, muscle strain, ligament strain, carpal tunnel syndrome, De Quervain disease etc.

Support for Wrist & Hand

Wrist & Forearm Splint

Recommended for sprains and strains, minor fractures of wrist & distal forearm and in post-surgical protection or rehabilitation. Supports and immobilizes the wrist. Leaves finger and thumb free. Made of high quality foam laminated fabric. Has three sets of buckle & velcro straps to adjust fitting properly. Unique design facilitates the use in both right and left hand by just interchanging metal splints into the pocket.

Common for left & right wrist.

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

Code - OC 2016

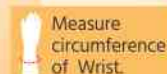

Elastic Wrist Splint

Recommended in mild to moderate sprains, strains & other similar conditions. Provides firm support & partially immobilizes the wrist. Comfortable and helps reduce pain. Unique design facilitates the use in both left and right hand by just interchanging metal splints in pockets. Adjustable Velcro. Easy to wear.

Black Beige

Common for left & right wrist.

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

Code - OC 2015

Support for Wrist & Hand

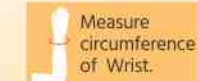

Thumb Spica Splint

Recommended for thumb sprains, ligament support, Game Keeper's thumb, minor thumb fractures and De Quervains Disease. Helps to support and immobilize thumb while maintaining abduction position. Easy to wear.

Available in two colours

Black Beige

Common for left & right wrist.

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

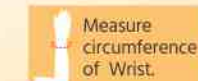

Code - OC 2025

Wrist Cock-Up Splint

Recommended for sprain, strain in the wrist, also after early cast removal. Immobilizes and supports wrist joint. Provided with Velcro buckle closing straps, foam padding and contoured malleable metal palmer splint which, can be interchanged according to sides.

Common for left & right wrist.

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

Code - OC 2087

Carpal Tunnel Splint

For mild to moderate carpal tunnel syndrome. Provide Support and compression to the wrist joint and keeps it in neutral position. Made of elastic and padded light metal splint. Thumb loop allows self application of product. Wrap around design. Easy to wear.

Common for left & right wrist.

Size: Universal

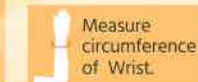

Code - OC 2088

Extended Forearm Brace

Recommended in the treatment of mild distal forearm fracture, wrist fracture and other similar conditions. Supports and immobilizes wrist joint.

Common for left & right wrist.

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

Code - OC 2085

Support for Wrist & Hand

Wrist Wrap

For weak and strained wrist. Supports and partially immobilizes wrist. Wrap around design. Easy application.

Size: Universal
Common for left & right wrist.

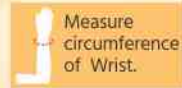

Code - OC 2030

Palm Brace

Helps in cases of injured or weak palm or can also be used during sport activities. Provides adequate compression, stabilization and relieves pain. Made up of knit fabric. Easy pull on application. Fits both left or right hand.

Common for left & right hand.

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

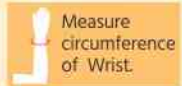

Code - OC 2104

Tubular Wrist Support

Helps in cases of an injured or weak wrist. Can also be worn during sport activities. Provides support and compression over wrist. Easy pull on application

Common for left & right wrist.

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

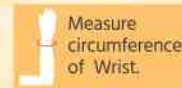

Code - OC 2084

Tubular Support (Gauntlet to Wrist)

Can be used in First aid or to hold the dressing in place. Provides firm support for joint structure with gentle compression over the wrist and forearm region. Pull on sleeve type application and two way tubular elastic.

Common for left & right wrist.

Size :	S	12.5 - 15 cms
	M	15 - 17.5 cms
	L	17.5 - 20 cms
	XL	20 - 22.5 cms
	2XL	22.5 - 25 cms

Code - OC 2058

Support for Wrist & Hand

Wrist Brace

Helps in weak or strained wrist. Supports and partially immobilizes the wrist, keeping the fingers free. Provides optimal compression. Made up of elastic with hook/loop for proper fitting and stabilization.

Size: Universal

Common for left & right wrist.

Code - OC 2027

Weight Cuffs

Used for exercise, general physiotherapy & rehabilitation. Helps to improve muscle mass, muscle strength, muscle tone and stamina. PUF fused fabric provides good cushioning & durability. Hook & loop straps with a double safety closure to assure easy adjustment & secure fit.

Available in 3 Weight options

- Brown 0.5 kg / 1.10 lbs
- Black 1 kg / 2.20 lbs
- Maroon 2 kg / 4.40 lbs

Common for left & right wrist.

Code - OC 2191

Tourniquet

Used to control venous & arterial circulation to an extremity for a period of time when patient is in a life-threatening state as a result of continuous bleeding. Pressure is applied circumferentially upon the skin & underlying tissues of the limb; this pressure is transferred to the walls of vessels, causing them to become temporary occluded. Made from high quality polyamide hook & loop tape with strong rust free buckle.

Available in 3 Sizes

Small
Medium
Large

Common for left & right hand.

Code - OC 2199

Seat Cushions

Coccyx Cushion Soft

For old age person, pregnant women or individual having pain in coccyx (tail bone). Provides pressure relief in coccyx thus reducing pain in that area. Made of soft density foam. Body weight upto 90 kgs.

Foam Inside

Size: Universal

Code - OC 2178

Coccyx Cushion Hard

For people with spinal cord injury or with decreased sensation for better pressure redistribution. Made of hard density foam. Body weight above 90 kgs.

Foam Inside

Size: Universal

Code - OC 2179

Pile Cushion

Recommended for hemorrhoids (piles). Relives pressure from that area, reducing pain. Made of high density foam. Body weight upto 90kgs.

Foam Inside

Size: Universal

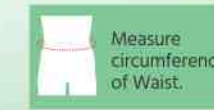

Code - OC 2180

Support for Hip

Hernia Belt

Helps in reducible inguinal hernia. Applies gentle, constant comfortable pressure to the hernia. Made of skin friendly materials. Molded foam pad, adjustable leg and abdominal strap. Can be worn undetected under clothing

Measure circumference of Waist.

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 135 cms

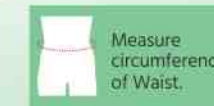

Code - OC 2086

Scrotal Support

Recommended following surgery and in treatment of many scrotal problems. Helps provide support to the cremaster muscle which adds comfort and convenience for patient. Light adjustable waistband and soft knit stretchable pouch of polyester. Made of soft and hypoallergenic material. Can be worn undetected under clothes.

Measure circumference of Waist.

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 135 cms

Code - OC 2143

Support for Knee

Human knee joint is complex; it is also among the most important joints in the musculoskeletal structure. Like shoulder joint, usage of knee joint is multi-fold and is prone to being unstable. With primary functions of offering support to the body and providing stability it is also the strongest joint in the human body. Knee joint is formed between three bones; the femur, tibia and patella; permitting the flexion and extension of lower leg relative to the thigh. Given the criticality of knee joint in the human anatomy, its imperative that knee is protected at all times.

Common problems : Fracture, dislocation, osteo-arthritis, meniscus injury, ACL or PCL tear, MCL or LCL tear etc.

Support for Knee

Knee Cap (Pair)

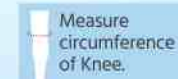

For old age, arthritis, sports injury etc. Provides mild compression, warmth and support to the knee joint. Helps reduce pain and inflammation. Made of 2-way stretch knit fabric. Simple pull on application

Available in two colours

Black

Beige

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

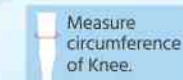

Code - OC 2013

Hinged Knee Cap

Recommended in sprains, strains, arthritis and geriatric patients. Offers compression and support (due to presence of knee joint). Allows normal range of motion. Made of 2- way stretch knit fabric with velcro for better fitment. Easy to wear.

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

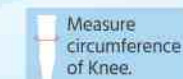

Code - OC 2023

Knee Stabilizer

Helps in treatment of patellar instability or patello-femoral pain. Guides the patella back into proper alignment with comfortable fit. Made of elasticized fabric with adjustable velcro. Easy to wear.

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

Code - OC 2069

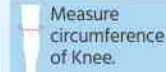

Open Patella Knee Cap

Recommended in arthritis, sports injury, old age etc. Provides mild compression and support to the knee joint. Also, guides patella in proper alignment. Made of 2-way stretch knit fabric with patella opening enclosed with rubber ring. Easy pull on application.

Available in two colours

Black Beige

Measure circumference of Knee.

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

Rubber Ring Inside

Code - OC 2047

R. O. M. Knee Brace

Recommended in conditions like sports-injury patella/joint dislocation, post-surgery and other similar conditions. Rehabilitative brace aimed at returning the patient to the daily activities in shortest span of time. Range of Motion of the knee joint can be controlled through a multi-point joint fixation system which helps to check flexion/extension or immobilization (1° to 90° flexion and 1 to 120° extension). Size and Side adjustable (i.e. can be used before and after removal of dressing or edema).

Range Of Motion (ROM) controller

Push Button for Easy adjustment.

Size: Universal

Common for left & right Leg.

Code - OC 2141

Patella Strap

Recommended in knee degeneration. Helps to lift patella and reduce symptoms of pain, inflammation and associated discomfort. Compression of patella tendon without restricting blood circulation. Have U-shaped pad for optimal compression at patella tendon and supporting knee cap. Hook and loop closures for easy adjustment with proper fit.

Hook & Loop closures for easy, non-binding adjustable fit.

U-shaped tension pad focuses tendon below the knee cap.

Common for left & right knee.

Size: Universal

Fits Knee : Cms. 27.5 - 45 (Knee circumference)

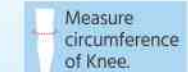

Code - OC 2062

Elastic Knee Support

For weak or injured knees, geriatric patients and also prophylaxis. Helps provide controlled compression with normal flexion and free movement. Easy wrap design with adjustable velcros and rigid joint.

Measure circumference of Knee.

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

Code - OC 2020

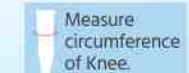

Knee Brace (Long)

Recommended in cases of emergency care for fractures, muscles or ligaments / tendon injury or knee dislocations. Immobilizes and provides support to the knee joint. Easy design. Easy to wear with posterior rigid metal uprights.

Available in two colours

Black Beige

Measure circumference of Knee.

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

Code - OC 2010

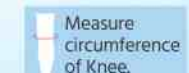

Knee Brace (Short)

Recommended in cases of emergency care for fractures, muscles or ligaments / tendon injury or knee dislocations. Immobilizes and provides support to the knee joint. Easy design. Easy to wear with posterior rigid metal uprights

Available in two colours

Black Beige

Measure circumference of Knee.

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

Code - OC 2011

Knee Immobilizer

Recommended in surgically treated conditions like Total Knee Replacement, PCL reconstruction or in emergencies to protect knee joint. Supports and immobilizes knee joint. Has rigid metal stays with adjustable velcro for proper fitting

Available in two colours

Black Beige

Common for left & right leg.

Size	Brace Length	Measure circumference of Knee.

Available in 2 colours. White Beige

Soft Gel Sheet Inside

Code - OC 2153

Support for Ankle & Foot

The ankle is a "hinged" joint capable of moving the foot in two primary directions: away from the body (plantar flexion) and toward the body (dorsiflexion). Its anatomy is formed by the meeting of three bones. The end of the shinbone of the leg (tibia) and a small bone in the leg (fibula) meet a large bone in the foot, called the talus, to form the ankle. Ligaments present on each side of the ankle provide the required stability.

Common problems: Sprains, strains, fracture, Achilles tendinitis etc.

Anklet

Helps in sport related injury, arthritis, sprain, strain, old age and other similar conditions. Provides compression, warmth, support and helps retain heat. Made up of 2-way stretch knit fabric with open toe design. Easy pull on application.

Available in two colours

Black Beige

Measure circumference of Ankle joint.

Size :	S	15 - 20 cms
	M	20 - 25 cms
	L	25 - 30 cms
	XL	30 - 35 cms
	2XL	35 - 40 cms
	3XL	40 - 45 cms

Code - OC 2014

Ankle Grip

Recommended in sprains, strains, edema, ligament injury of ankle joint and can also be used as prophylaxis in sports. Provides compression, warmth, support and to some extent immobilization. Made up of 2-way stretch knit fabric with elastic wrap. Easy to wear

Measure circumference of Ankle joint.

Size :	S	15 - 20 cms
	M	20 - 25 cms
	L	25 - 30 cms
	XL	30 - 35 cms
	2XL	35 - 40 cms
	3XL	40 - 45 cms

Common for left & right Ankle.

Code - OC 2103

Support for Ankle & Foot

Code - OC 2040

Ankle Brace

Can be used in ankle injury and other similar conditions. Provides comfort and fits around the ankle joint. Limits flexion-extension to some extent. High quality foam coated fabric with velcros. Easy to wear.

Available in two colours

Black Beige

Measure circumference of Ankle joint.

Common for left & right Ankle.

Size :	S	15 - 20 cms
	M	20 - 25 cms
	L	25 - 30 cms
	XL	30 - 35 cms
	2XL	35 - 40 cms

Code - OC 2125

Stirrup Ankle Brace

Recommended in sprain and strain of ankle joint or in post-operative rehabilitation. Provides both protection, controls inversion and eversion while allowing plantar flexion and dorsiflexion. Accommodates swelling and edema. Made of rigid plastic shell design with inner foam padding.

Size: Universal Common for left & right Ankle.

Code - OC 2005

Ankle Binder

For weak or swollen ankles and flaccid foot drop. Helps relieve pain and swelling. Made of elastic. Easy figure 8 application.

Available in two colours

Black Beige

Measure circumference of Ankle joint.

Common for left & right Ankle.

Size :	S	15 - 20 cms
	M	20 - 25 cms

Gel Stirrup Ankle Brace

Recommended in sprain and strain of ankle joint or in post-operative rehabilitation. Provides both protection, controls inversion and eversion while allowing plantar flexion and dorsiflexion. Accommodates swelling and edema. Made of rigid plastic shell design with inner gel padding. Velcro for adjustment.

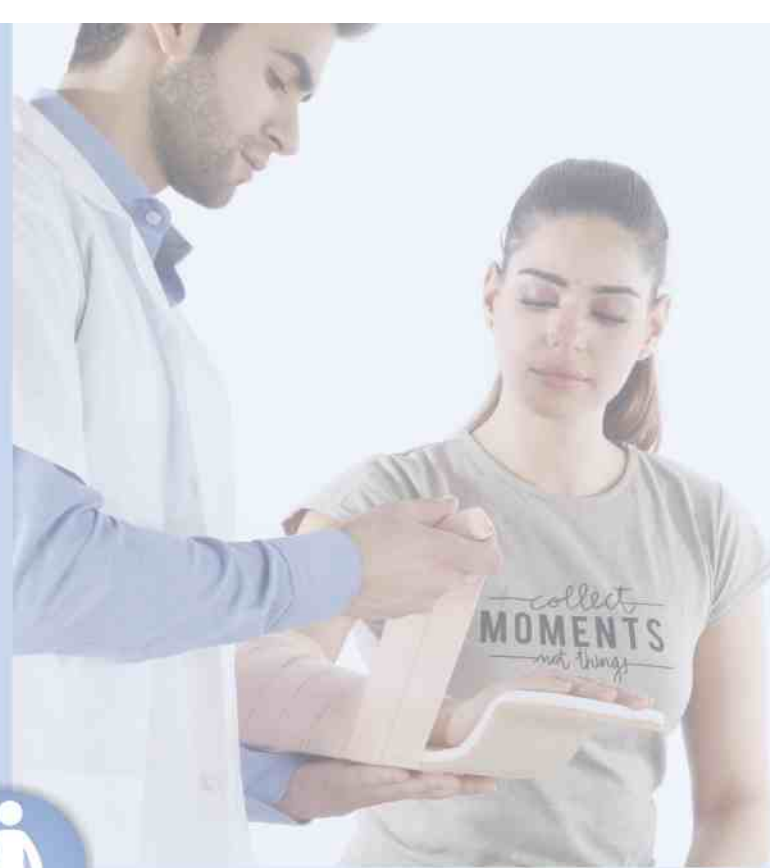

Soft Gel Sheet Inside

Size: Universal Common for left & right ankle.

Splints

The management of wide variety of musculoskeletal conditions require the use of splints. Splints are devices made of hard material to hold bones and joints in place so they can heal after a fracture (broken bone), injury, or surgery. Splints also help with conditions which affect the joints (such as arthritis) or muscles (such as palsies, which are weakness or paralysis of a muscle).

Splints

Cot Splint

Recommended in fracture, injuries or post-operative care, burns etc. Helps in immobilizing and protection of phalanges. Made of malleable aluminum with comfortable padding inside. Does not restrict other fingers. Velcro for snug fit. Easy to wear

Common for left & right hand finger.

Size :	S	5.6 cms
	M	6.2 cms
	L	7.5 cms
	XL	8 cms

Code - OC 2100

Frog Splint

Recommended in fracture, post injury and similar conditions. Aligns inter-phalangeal joints by immobilizing finger in functional position. Malleable aluminum with foam padding. Does not restrict other fingers. Easy to apply

Common for left & right hand finger.

Size :	S	5.6 cms
	M	6.2 cms
	L	7.5 cms
	XL	8 cms

Code - OC 2097

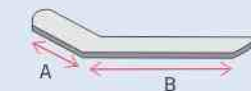

Spoon Splint

Recommended for dislocated fractures, sprains etc. Supports and stabilizes the finger. Made of malleable aluminum with upward curve at tip, protects the distal end of finger. Adjustable velcro strap. Easy application

	A	B
Size :	S	5.8 cms
	M	7.9 cms
	L	9.6 cms
	XL	10.2 cms

Common for left & right hand finger.

Code - OC 2101

Baseball Splint

For finger fracture, ligament injury, finger deformity, arthritis and other similar conditions. Supports, protects and immobilizes the finger in extension position. Malleable aluminum splint can be reshaped to hold the finger in exact position. Easy to wear.

Common for left & right hand finger.

Size :	S	5.6 cms
	M	6.2 cms
	L	7.5 cms
	XL	8 cms

Code - OC 2098

Extended Baseball Splint

For finger fracture, ligament injury, finger deformity etc. Supports, protects and immobilizes the finger and metacarpophalangeal joint. Maintains interphalangeal joint in correct position. Made of malleable aluminum splint which can be shaped to maintain MCP joint in fixed position. Easy to wear with comfortable foam padding.

Common for left & right hand finger.

Size :	S	5.6 cms
	M	6.2 cms
	L	7.5 cms
	XL	8 cms

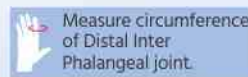

Code - OC 2099

Stax Mallet

Useful in mallet finger deformity. Support the distal interphalangeal joint in hyper extension, keeping proximal interphalangeal joint free. Made of engineering plastic. Well ventilated holes keeps the skin cool and dry. Easy application and removal

Common for left & right hand finger.

Size :	S	4 - 5 cms
	M	5 - 6 cms
	L	6 - 7 cms
	XL	7 - 8 cms

Code - OC 2118

Short Arm Splint

For fracture of hand or wrist. Supports and immobilizes the affected area. Can be used as temporary or pre-operative support. Pre-moulded malleable well padded aluminum splint.

Size: Universal

Common for left & right hand.

Code - OC 2207

Short Leg Splint

For fractures of distal tibia & fibula, tarsals, metatarsals or ankle dislocations. Can be used as temporary or post-operative support. Supports and immobilizes the affected part. Made of pre-moulded well padded malleable aluminum splint.

Common for left & right Leg.

Size: Universal

Code - OC 2208

Foot Drop Splint

For foot drop condition, ankle or plantar flexion on fracture, post-operative care, burns or in peripheral nerve damage. Supports the foot during walking by preventing foot slap at heel strike and assist toe clearance in swing phase. Semi rigid construction with hook and loop closures. Should be used with footwear. Easy application

Different for left & right Leg.

Measure Shoe Size		
	Indian	European
Size : S	Below 6	Below 36
M	6 - 8	36 - 38

Code - OC 2205

Long Leg Splint

Used immediately post-injury or in emergency splinting of fracture/ dislocation of leg. Supports, protects and immobilizes leg. Made of malleable metal to shape the splint according to need

Common for left & right Leg.

Size: Universal

Code - OC 2378

Long Arm Splint

Used immediately post-injury or in emergency splinting of fracture / dislocation of upperlimb. Supports, protects and immobilizes affected area. Made of malleable metal to shape the splint according to need.

Common for left & right hand.

Size: Universal

Code - OC 2360

Compression Aids

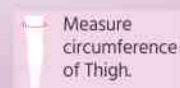

Compression therapy works on the principle of applying pressure on certain parts of the human body which require immediate attention due to underlying physical or medical conditions. The pressure applied by such stockings and socks enables an individual's blood vessels to function better, allowing oxygen-rich blood to flow freely across the arteries. Compression aids is developed to provide firmness, support and blood supply to certain regions of an individual's body. Different types of socks and stockings are available for body parts such as thighs, arms, forearms, calves, ankles, etc.

Varicose Vein Stockings

For varicose veins, tired, aching or swollen legs. Helps to reduce oedema, provides compression and helps relieve pain. Made up of knit fabric providing uniform compression. Open toe design for comfort and ventilation

Size :	S	42.5 - 47.5 cms
	M	47.5 - 52.5 cms
	L	52.5 - 57.5 cms
	XL	57.5 - 65 cms
	2XL	65 - 70 cms
	3XL	70 - 75 cms

Code - OC 2012

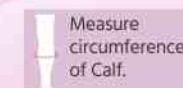

Compression Aids

Code - OC 2057

Tubular Support Below Knee

For varicose veins, spider veins, burns, post-injury recuperation etc. Helps to reduce oedema, provides compression and helps relieve pain. Made up of knit fabric providing uniform compression. Open toe design

Common for left & right Leg.

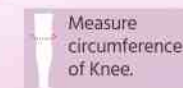

Size :	S	25 - 30 cms
	M	30 - 35 cms
	L	35 - 40 cms
	XL	40 - 45 cms
	2XL	45 - 50 cms
	3XL	50 - 55 cms

Code - OC 2083

Light Knee Brace

Recommended for arthritic knee conditions and mild to moderate sprains. Provides support, stabilization and controlled compression. Partially restricts range of motion. Made of knit fabric with 4 semi flexible stays on the sides

Common for left & right knee.

Size :	S	27.5 - 32.5 cms
	M	32.5 - 37.5 cms
	L	37.5 - 42.5 cms
	XL	42.5 - 47.5 cms
	2XL	47.5 - 52.5 cms
	3XL	52.5 - 57.5 cms

Code - OC 2039

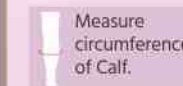

Calf Support

For aching calf muscles or pain in shin. Provides comfort, support and controlled compression. Made of knit fabric. Easy pull on application

Available in two colours

Black Beige

Common for left & right Leg.

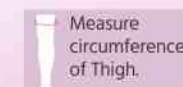

Size :	S	25 - 30 cms
	M	30 - 35 cms
	L	35 - 40 cms
	XL	40 - 45 cms
	2XL	45 - 50 cms
	3XL	50 - 55 cms

Code - OC 2049

Thigh Support

For weak or over-stressed thigh and hamstring muscles. Reduces fatigue, muscle tiredness. Provides compression and support. Made of knit fabric. Easy pull on application

Size :	S	42.5 - 47.5 cms
	M	47.5 - 52.5 cms
	L	52.5 - 57.5 cms
	XL	57.5 - 65 cms
	2XL	65 - 67.5 cms
	3XL	67.5 - 70 cms

Foot Care

At home, at work-place, at a park; we are always on our feet. It's important that our feet be pampered and kept healthy at all times. Our Footcare products available in Silicone and Gel range offers the ultimate relief and comforts.

Foot Care

Code - OC 2022

Heel Cushion

Heel cushion helps relieve & prevent pain associated with plantar fasciitis, heel spurs, bruised heels etc. Relieves pressure, provides excellent cushioning and long lasting comfort. Shock absorbing quality. Can be switched in multiple shoes

Size: Universal

Code - OC 2093

Medial Arch Support

For flatfoot or during activities which increases risk of ankle sprain. Supports & maintains normal medial arch position. Can be worn in multiple shoes

Size: Universal

Code - OC 2091

Silicone Foot Insole

Can be used in fat pad atrophy, diabetic foot and other foot related problems. Slightly contoured arch for support. Reduced shock on joints. Ventilation holes for air circulation & decreases heat built-up. Can be trimmed for optimum fit. Used in multiple shoes.

Abdominal Binder (25 cms)

Recommended after surgery or after delivery to support abdominal region. Offers good compression, helps control edema and assist early mobility. Made of superior quality, breathable elastic band. Have flexible stays to prevent edge roll over when worn.

Measure circumference of Waist.

Size :	S	70 - 80 cms
	M	80 - 90 cms
	L	90 - 100 cms
	XL	100 - 110 cms
	2XL	110 - 120 cms
	3XL	120 - 130 cms

Pediatric Range

Pediatric Range

Children are different than adults in multiple ways as they need special and compassionate care. In line with this philosophy, our specially-designed pediatric orthopedic products seek to improve the lives of children everywhere by offering support or restrictive movement – depending upon nature of the injury – so that they can get back to doing what they do best – run, jump and play.

Pediatric Walker

It is used for children with temporary injuries, physical disabilities or for special needs. Provides stability, support body weight, maintains balance. Reciprocal light weight, Foldable-convenient in transportation & storage. Large Rubber Pods for better stability. Can take weight up to 40Kg & height adjustable.

Adjustable and lightweight Size: Universal

Code - OC 2170

Pediatric Walking Stick

It is used for children with temporary injuries, physical disabilities or for special needs. Provides stability, support body weight, support body weight, maintains balance. Light weight, better hand grip & bottom rubber pods for firm ground grip.

Size: Universal

Code - OC 2167

Pediatric Cervical Collar

Recommended for prevention & treatment of cervical region. Immobilizes cervical spine to certain extent. Made of foam & 100% cotton stockinette. Comfortable, air vents for ventilation. Easy to put on & take off

Size :	S	17.5 - 20 cms
	M	20 - 22.5 cms
	L	22.5 - 25 cms

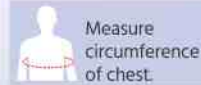

Code - OC 2206

Pavlik Harness

For new BORN BABIES having hip dislocations also known as DDH. Involves dislocation of femoral head from the acetabulum which disrupts normal development of the hip joint. Early hip dysplasia can often be treated using a Pavlik harness in the first year of life with usually normal results. However, careful developmental monitoring by physician is recommended. Well padded, with no metal buckles and quality hook and loop closures. Radiolucent with open toe design.

	Baby Weight	Chest Band

Traction Aids

Traction is the application of forces in direct opposition to each other to produce a separation of two body parts or stretching of soft tissues. In the area of spine care, traction is commonly used to treat cervical and lumbar pain. Traction therapy is also used to realign and stabilize bone fractures, reduce pain at the fracture area before surgery, correct deformities and contractures etc.

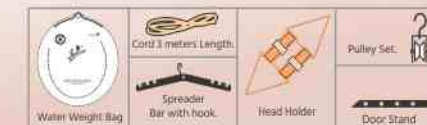

Traction Aids

Code - OC 2130

Cervical Traction Kit (Sitting)

Recommended for sprain or dislocation in cervical region. Provides traction to the cervical & upper thoracic vertebrae. Relieves pressure by stretching musculature & connective tissue of cervical region. Kit consist of soft padded head holder, spreader bar with hook, pulley set, 3 meters long cord, water weight bag & door stand.

Size: Universal

Code - OC 2198

Cervical Traction Kit (Sleeping)

Recommended for sprain or dislocation in cervical region. Provides traction to the cervical & upper thoracic vertebrae. Relieves pressure by stretching musculature & connective tissue of cervical region. Kit consist of soft padded head holder, spreader bar with hook, traction pulley bracket, 3 meters long cord, water weight bag.

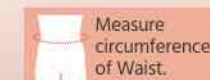

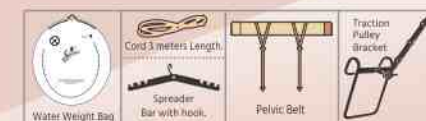

Size: Universal

Code - OC 2096

Pelvic Traction Kit

Provides traction to lumbo-sacral & lower thoracic region. Gives uniform & controlled traction. Kit consist of pelvic belt, traction pulley bracket, water weight bag, 3 meters long cord and spreader bar with hook.

Size :	S	70 - 80 cms
	M	80 - 90 cms
