

ISO 13485:2016 Certified Company

GI Endoscopy

Company Profile

Endo-Med Technologies Pvt. Ltd. is based at New Delhi, the capital city of India and is engaged in development, manufacturing and global distribution of minimal invasive medical devices in the field of Gastro Endoscopy. Backed by more than 25 years of experience Endo-Med is committed to serve the customers with quality products at affordable price and service to the utmost satisfaction of the customers.

The members of "team Endo-Med" are experienced with the largest companies across the world and exposed to trans-continent markets, thus possessing the highest level of expertise in their respective fields. The company is an ISO 13485:2016 certified organization which is deeply involved in the manufacturing of the best quality medical products under the best quality management systems. With guidance from the renowned Gastroenterologist in India and abroad associated with Endo-Med, we develop the product keeping in mind, the every minute expectation of the user from the product thus making our product among the most user friendly for a medical practitioner in the procedural room. All Endo-Med Products are "CE" Certified and are manufactured as per the guidelines of GMP*.

Quality Policy

At Endo-Med, Quality is the way of life and operations. Stage wise rigorous inspection is carried out right from procurement of raw material to delivery of the finished product. All of our employees are committed to constantly improve the quality management system.

Philosophy

The company believes in long term relationship and mutual growth as objective. At Endo-Med, quality is a culture and service a tradition.
